# SREC OFFERS SAFETY DEMOS

# MESSAGE

FROM THE LINE DEPARTMENT

COLUMN BY **ROBERT ANDERSON**

**SUN** River Electric Cooperative (SREC) plays an active role in teaching electrical safety to area schools, fire departments, first responders and other organizations.

With the use of the rural cooperatives' high-voltage demonstration trailer, we are able to simulate the awesome force of electricity when contact is made to a high-voltage power line. This "shock and awe" method leaves spectators with a more profound respect for electrical safety.

During the demonstrations, tips are given to the spectators on how to work safely around electricity, how to help prevent electrical accidents, as

well as what to do, and not do, in the event of an accident.

If your school or organization  
would like to have an electrical safety

demonstration, please contact Robert at SREC at 1-800-452-7516 or 467-2526 to schedule a time.
