SREC directors receive CCD, Gold certification

Chris Music

Bryce Johns

Russ Bloom

Sun River Electric Cooperative (SREC) Directors Chris Music and Bryce Johns each recently received the Credentialed Cooperative Director Certification from the National Rural Electric Cooperative Association (NRECA). Director Russ Bloom received the Director Gold Credential Certificate.

An ever-changing business environment has imposed new demands on electric cooperative directors, requiring increased knowledge of changes in the electric utility business, new governance skills and a solid knowledge of the cooperative principles and business model. Sun River Electric has made a commitment to work through NRECA to sharpen this body of knowledge for the benefit of their electric cooperative members.

The NRECA Credentialed Cooperative Director (CCD) program requires attendance and demonstrated understanding of the basic competencies contained in five core courses: Director Duties and Liabilities, Understanding the Electric Business, Board Operations and Process, Strategic Planning and Financial Decision Making.

The Director Gold Credential recognizes directors who have already earned their CCD and the Board Leadership Certificate (BLC), who wish to continue to learn throughout their service on the board. RM
